

Fluke BHT190 Break-Out Adapters for Industrial Bus Connections

Overview:

Set of break-out adapters for the three most common industrial bus connection systems M12, DB-9 and RJ-45. Each board works as a straight-through connection for the bus cable and gives access to the individual wires and pins of the connector system for hooking up probes.

Specifications:

Max. voltage 30 V rms, 42 V peak, between any connection and between connections and ground.
