| Brand Name        | Minerallac                                                                                                                                                                                                                                                                                        |
| Sub Brand         | Cully                                                                                                                                                                                                                                                                                             |
| Type              | Pipe Wrap                                                                                                                                                                                                                                                                                         |
| Special Features  | Anti-corrosive and moisture resistant                                                                                                                                                                                                                                                             |
| Application       | Perfect for industrial identification, color coding, and pipe wrapping purposes.                                                                                                                                                                                                                  |
| Material          | Rubber-based, pressure sensitive adhesive system                                                                                                                                                                                                                                                  |
| Color             | Black                                                                                                                                                                                                                                                                                             |
| Length            | 100'                                                                                                                                                                                                                                                                                              |
| Width             | 2"                                                                                                                                                                                                                                                                                                |
| Thickness         | 20                                                                                                                                                                                                                                                                                                |
| Type              | PVC Pipe Wrap                                                                                                                                                                                                                                                                                     |
| Special Features  | High Strength / Premium Grade - recommended where greater physical strength characteristics are required. Designed to protect external pipe surfaces from corrosion.                                                                                                                              |
| Application       | Ideally suited for valves, elbows, and fittings for application in both indoor manufacturing environments and outdoor jobsites. Provides outstanding protection against sunlight, weather, acids, alkalies, saltwater, aging, and corrosive salts and fumes. Minimum Application Temperature 40°F |
| Standard          | Heavy Duty                                                                                                                                                                                                                                                                                        |
| Material          | Polyvinyl Chloride (PVC) Tape                                                                                                                                                                                                                                                                     |
| Size              | 1.5" ID Core                                                                                                                                                                                                                                                                                      |
| Length            | 100                                                                                                                                                                                                                                                                                               |
| Width             | 2                                                                                                                                                                                                                                                                                                 |
| Tensile Strength  | 44 lbs/in                                                                                                                                                                                                                                                                                         |
| Thickness         | 20.0                                                                                                                                                                                                                                                                                              |
| Temperature Range | -20°F to +176°F                                                                                                                                                                                                                                                                                   |
| Backing Material  | Pressure-Sensitive Adhesive                                                                                                                                                                                                                                                                       |
