## L100 Series

### 2-inch Media

A broad range of optical filters, theatrical tinting color lenses and louvers are available to provide additional light control and artistic expression. Use with the HL36 and ML4 series luminaire media holder.

## Product Specifications

### 2-Inch Diameter Filter Media

- Optically clear glass lenses are used to modify the beam of light.
- For proper installation, the textures side is placed away from the lamp.
- Replace existing clear glass lens provided for containment.
- Can be combined with filter media, louvers and snoots.
- L110N** - Diffuse Sand Blasted Lens provides an even beam spread, useful in wall washing.
- L111** - Soft Focus Lens smooths irregular beam patterns without affecting illumination levels and beam angles.
- L113** - Prismatic Spread Lens broadens beam patterns, creates a wide, uniform distribution of light.
- L115** - Linear Spread Lens fans the beam to produce a wide, rectangular pattern.

### 2-Inch Diameter Theatrical Tinting Colors

- Tinted glass lenses are used to modify the beam of light.
- Replace existing clear glass lens provided for containment.
- Can be combined with filter media, louvers and snoots.
- L112** - Red Gel Filter
- L114** - Ultraviolet Filter reduces UV impact
- L120** - Red, Dichroic Filter
- L121** - Amber, Dichroic Filter
- L122** - Yellow, Dichroic Filter
- L123** - Green, Dichroic Filter
- L124** - Daylight Blue, Dichroic Filter
- L125** - Blue, Dichroic Filter
- L130** - Yellow Gel Filter
- L131** - Amber Gel Filter

### 2-Inch Diameter Louver

- LHEX** - 2-inch diameter matte black hex cell louver provides 45° cutoff, 50W maximum use limit.
- LSA16** - Matte black lamp snoot accessory, for use with die cast lamp capsule
