SIEMENS

Data sheet 6GF9002-7AD

product type designation	**Ring light support coaxial massive**
product description	Mounting system for the flexible setting of the x, y and z direction

support system TRI-sheet metal suitable for MV440 mounting plate and VS100 sensor heads, very stable, 3 parts with 3 degrees of freedom 165x 175x 65 mm (WxHxD).

product brand name	SIMATIC MV
Technical Product Detail Page	https://i.siemens.com/1P6GF9002-7AD
suitability for use	For the precise alignment of a camera with the read area
suitability for operation	mounting of an MV440 via mounting plate 6GF3440-8CA
mechanical data	
color	metallic
design, dimensions and weights	
width	165 mm
height	175 mm
depth	65 mm

Security information	
security information	Siemens provides products and solutions with industrial cybersecurity functions that support the secure operation of plants, systems, machines and networks. In order to protect plants, systems, machines and networks against cyber threats, it is necessary to implement - and continuously maintain - a holistic, state-of-the-art industrial cybersecurity concept. Siemens' products and solutions constitute one element of such a concept. Customers are responsible for preventing unauthorized access to their plants, systems, machines and networks. Such systems, machines and components should only be connected to an enterprise network or the internet if and to the extent such a connection is necessary and only when appropriate security measures (e.g. firewalls and/or network segmentation) are in place. For additional information on industrial cybersecurity measures that may be implemented, please visit www.siemens.com/cybersecurity-industry. Siemens' products and solutions undergo continuous development to make them more secure. Siemens strongly recommends that product updates are applied as soon as they are available and that the latest product versions are used. Use of product versions that are no longer supported, and failure to apply the latest updates may increase customer's exposure to cyber threats. To stay informed about product updates, subscribe to the Siemens Industrial Cybersecurity RSS Feed under https://www.siemens.com/cert. (V4.7)
