KILLARK®

SC11W - 11 CU inches Fill, Sealing Compound with Water

By Killark
Catalog # SC11W

11 CU inches Fill, Sealing Compound with Water.

Features

- Exact amount of compound and water are packaged together into a two compartment plastic pouch.
- No mixing or measure implements are required.
- Squeezing the inner water container forces the water into the compartment containing the sealing compound.
- Complete mixing takes place inside the plastic pouch.
- Can be poured directly into the sealing fitting.
- A tubular straw is provided to reach those difficult seals.
