adorne Collection

adorne® Wired Remote Smart Dimmer with Netatmo, White

Part No. WNAL64W1

The Wired Remote Smart Dimmer allows you to hardwire remote control of a primary smart dimmer. The Remote Smart Dimmer is line voltage powered and communicates wirelessly back to an installed primary smart dimmer. The remote dimmer must first be paired with a Smart Gateway with Netatmo and then associated, through the Legrand Home + Control app, with another already installed primary smart dimmer. This is ideal for locations where you are converting existing 3-way or multi-location dimming control to become part of your smart home. In new construction it allows for faster installation with the removal of the traveler wire requirement as each wired remote communicates wirelessly back to the primary device, saving on installation time and cost. Made exclusively for use with Wall Plates from the adorne® Collection, sold separately.

Features & Benefits

Smart Gateway with Netatmo REQUIRED. Must be paired with a Primary Smart Dimmer.

3-Way Control for Smart Lighting: Designed to be used in 3-way or multi-location control environments when paired with a primary smart lighting with Netatmo dimmer.

Part of the adorne with Netatmo solution, which flexibly fits a home's unique needs with a variety of supported smart switches, dimmers and outlets.

Compatible with Smart Home Platforms: Can be onboarded to Amazon Alexa, Google Home and Apple Home, as well as other smart home platforms for greater home integration.

Complete the look with a stunning, screwless adorne® Wall Plate, not included. Available in a range of contemporary colors and finishes. Coordinate with other designer switches & outlets.

Eliminate Traveler Wires: Wired remotes are line voltage powered and communicate wirelessly back to a primary switch or dimmer – eliminating the need to run separate traveler wires in new construction for multi-location control.

Pairs with Smart Lighting with Netatmo Primary Devices: Pairs with a Smart Lighting with Netatmo primary smart dimmer.

Reliable Performance: Features ultra-reliable performance through a robust and dedicated mesh network

Multiple Collections & Color Options: Choose from either the adorne® or radiant® collection to fit a home's unique needs. Additional color options available with use of Smart Lighting with Netatmo Color Change Kits

Specifications
