

# Open-Access™ Cable Management System

## SPECIFICATIONS

Cable management solutions shall be capable of managing cable on the front and rear of any standard EIA 19 in. rack or cabinet. Panels shall be constructed of a steel panel with plastic D-rings attached. Horizontal D-rings shall snap into panels and vertical D-rings shall be screw mounted to rack. Horizontal panels shall have pass-through holes and shall be available in both front and rear versions and front only versions.

## TECHNICAL INFORMATION

Attributes:	Part Number	RU	Height in. (mm)	Width in. (mm)	Depth in. (mm)
	CMPHF1	1	1.7 (43)	19 (482)	3.4 (87)
	CMPHF2	2	3.5 (88)		
	CMPHHF1	1	1.7 (43)		5.4 (137)
	CMPHH2	2	3.5 (88)		
	CMPH1	1	1.7 (43)		8.6 (218)
	CMPH2	2	3.5 (88)		
D-ring mounting options:	Horizontal D-rings snap into Open-Access™ panels only; vertical D-rings screw into EIA racks				
Panel mounting options:	Mount to any EIA 19 in. rack or cabinet				
Packaging:	Cable management panels include horizontal D-rings pre-installed onto panels and #12-24 mounting hardware				

## KEY FEATURES AND BENEFITS

Standards met:	UL 2416, CSA C22.2
Modular, snap-in D-rings:	Provides flexibility for system requirements
Flexible D-rings:	Allows easy access to cables for moves, adds, and changes
Rounded D-rings:	Prevents cable snags
Cable pass-through holes on panels:	Provides ease of installation and cable maintenance
Available in a variety of styles:	Suitable for large and small cabling installations
Lightweight, sturdy construction:	Easy to work with while still providing durability
Optional snap-on cover:	Provides an aesthetically pleasing solution

## APPLICATIONS

Panduit® Open-Access™ Cable Management components offer an economical cable management solution for current and future applications. D-rings provide an “open” and efficient way to manage cable on any standard EIA 19 in. rack or cabinet. The panels can be used in multimedia applications with all coax, copper and fiber optic cables. The Open-Access™ System offers increased flexibility due to the modularity of the D-rings. Components can be easily added as system requirements grow, providing the lowest installed cost. The Open-Access™ Cable Management System can be used with Mini-Com® Modular Patch Panels, Opticom® Enclosures and NetRunner™ Vertical Cable Management and Racks for a total system solution now and in the future.

### Open-Access™ Cable Management System 2 Rack Space Panel, Front and Rear

19 in. 3 x 3 D-rings on front and 3 x 5 D-rings on rear: CMPH2

### 2 Rack Space Panel, Front Only

19 in. 3 x 3 D-rings: CMPHF2

19 in. 3 x 5 D-rings: CMPHH2

### 2 Rack Space Panel, Front and Rear

19 in. 1.5 x 3 D-rings on front and 1.5 x 5 D-rings on rear: CMPH1

### 1 Rack Space Panel, Front Only

19 in. 1.5 x 3 D-rings: CMPHF1

19 in. 1.5 x 5 D-rings: CMPHHF1

### 1 Rack Space Horizontal D-rings
